Due to the fact that we are unable to receive a bid below the estimate using shale tile, we have changed the specifications to read clay tile which is manufactured here in London. There is approximately a price difference of \$100.00 for the entire job and by substituting clay for shale tile we will be able to meet the bid price.

We are requesting all the property owners on this project to sign this petition with the understanding that you are approving the switch from shale to clay tile.
